

FOUND!

THE "BABY BLUE BIRD" HAS LANDED

My "Baby Blue Bird", my 1967 Cardinal Trailer found her way home! On July 1st I received a phone call from an individual who found my trailer which he had identified from a flyer I had posted at a local campground. The trailer was about 30 miles from my home and with the Sheriff's assistance I picked her up late that night. There is some damage to the body and lots of items missing but I got her back! There have been no arrests yet and the Grover Beach Police are still investigating and welcome any leads so I can only mention limited information. I truly appreciate everyone's assistance in getting the word out when she was Stolen. It amazed me all the support from friends, relatives, Vintage Trailer Clubs and numerous total strangers. My theory was...."The more people who knew the better my chances of Recovery!"..and it worked! Plus lots and lots of good ol' Luck!

This puts a new meaning to the term, "Happy Camper"!
